

The Proposal

Location

The location of the proposed Edintore II Wind Farm is approximately 2km south of Keith, Moray.

Capacity and Output

The turbines would have a maximum blade tip height of 149.9m and an overall capacity of up to 16.8MW.

The proposed development could produce approximately 49 Gigawatt hours (GWh) of electricity each year, equivalent to the annual power needs of up to approximately 12,300 homes.
